For decades, retirees looked to places such as Florida for the climate and leisure activities. But now many retirees are searching for something extra -- a place where they can make connections and a difference. To them, a small town seems like the idyllic retirement setting after years of hustling and bustling in the cities and suburbs.

Many small towns are not waiting for retirees to discover them. Communities are actively seeking out retirees as a way to boost economic development. Ellsworth is one of ten tiny communities in Kansas offering free land to retirees and families who want to relocate.

If you treasure your anonymity, you may not want to live in a place where everyone really knows your name, as well as your business, says Frank Levering, who moved with his wife, Wanda Urbanska, from Los Angeles to rural Virginia. In a small town, people may notice a new awning on your house or whether you left 15 minutes early that day, or whether your cat was wandering down the street.

"If you ever wanted to be useful or needed, a small town is the place for you," says Levering. "There is often a bit of social pressure to become involved, and if you are not, you tend to feel what people are thinking about you."

It's difficult to stereotype small-town living. Sure, you can move into a cabin in the woods and fish all day. But you can also find many activity-packed places. In 2003, Charlene and Terry Ott left Fort Lauderdale, for Oxford, and are leading busy lives. They lived in Florida for 25 years, while Terry was a sales manager for an airline. But they felt that even a retirement mecca like Fort Lauderdale was getting too crowded. They discovered Oxford when they took a side trip from a gambling jaunt to Tunica, about 30 miles away.

Oxford is one of 21 small towns in Mississippi that are designated as "certified retirement communities" by the state's Hometown Mississippi Retirement program. A certified community must meet criteria that are important to retirees, such as quality medical facilities and an affordable cost of living.

As appealing as small-town life may seem, city slickers should recognize that housing choices may be limited. The Carlsens of Walla Walla had a tough time finding (A) , so they bought land and had a house

built. There are few flights from Walla Walla -- convenient transportation is a consideration if you want to visit family or friends. If you have a medical condition, make sure you have easy access to specialists. But smaller places are building bigger hospitals, as doctors, too, escape big cities for the simpler life.

Rand's Morrison, 67, advocates spending a few weeks a year in a place before deciding to settle there. He says: "Think about what you are going to do on Monday, on Tuesday and on Wednesday -- other than play golf." He knows from personal experience, having moved from Los Angeles to Nantucket, Mass.

The most senior engineer/accountant/practitioner in the department is retiring today. Co-workers wish her well, buy her lunch, sign her humorous greeting card... and jot down her phone number for the moments in the near future they will need her help. They hope she'll answer when they call because if she doesn't, they'll be **sunk**. Such anxious departures happen 10,000 times a day, according to the Pew Research Centre.

A recent study from the University of North Carolina at Chapel Hill reveals that less than 40 percent of employers have taken action to address the imminent loss of detailed know-how. Adding even well-trained millennials to the workforce may not be enough to restore the balance when your company is **haemorrhaging its veteran employees**.

We're not talking the stuff of dust-collecting procedure manuals. Dorothy Leonard, a professor of business administration at Harvard Business School, says there is a big difference between information and knowledge. Information is something you can get from Google. Knowledge is the critically-important stuff in your head that has never been written down. And companies often fail to retain it.

It is critical that longtime workers transfer the knowledge they've gained from decades of experience to employees who will be taking on their

responsibilities. Leonard calls it "tacit knowledge." Unlike a checklist or a binder full of procedures or reports, this knowledge is hard to identify and even harder to pass on.

Duke, the nation's largest regulated utility, has launched multiple initiatives to help transfer what seasoned workers *just know* to what younger workers *must know*. For instance, the company developed a board game called Megawatt Fever to help young engineers better understand an energy industry that has not seen a new nuclear facility come on line in nearly 20 years but where experience in maintenance is critical.

Melissa Moran, the nuclear group's manager of strategic workforce planning, asked nuclear managers to develop and submit knowledge-transfer plans for team members nearing retirement. Plan tactics include shooting videos to walk/talk newer hires through complex procedures. Of course, this video archive has the added value of being useful in training future employees. Businesses can start by analysing their workforce to understand the scope of the problem, and then implement programs to capture and pass on the tacit knowledge that is critical to their future success, and that of their younger employees.

1. Ans. C.

The error lies in the third part of the sentence. Being preceded by the helping verb 'was', the verb 'know' needs to take on its past participle form to maintain the tone of the sentence.

Thus, option C is the correct answer.

2. Ans. A.

Note that Lest is a negative word and we do not use 'not, never or no' with lest.

3. Ans. D.

Note the correct co-relative conjunction is 'Not only...but also'. In the fourth part, 'but' is missing which must be placed before 'also' for the sentence to make sense.

4. Ans. C.

Note that belonging is (uncountable) the action of the verb to belong while belongings is possessions or personal items. And in the given context, the latter makes sense.

5. Ans. A.

The Otts said they left Fort Lauderdale as "...Fort Lauderdale was getting too crowded" indicates the increase in the population of Fort Lauderdale. Hence, the correct answer is A.

6. Ans. C.

"A certified community must meet criteria that are important to retirees..." "Access to coastal areas" is not an important factor to retirees. People have changed their residence when places get "overcrowded", and are advised to check travel convenience and availability of medical facilities. Hence, the correct answer is C.

7. Ans. D.

Only option III is correct. The reasons are as follows:

I: "Communities are actively seeking out retirees as a way to boost

economic development." Clearly, the retirees have much to give to the communities. So, option I is false.

II: Here, Fort Lauderdale is described as even a retirement mecca because it attracts plenty of retirees. So, option II is false.

III: "If you ever wanted to be useful or needed, a small town is the place for you..." When people have such involvement in the communities, they do not live an idle life. So, option III is true.

Hence, the correct answer is D.

8. Ans. E.

The first two paragraphs present an idyllic picture of the small towns as retirement settings. But the third paragraph starts with the downside of such a setting. This shift in mood should be marked by a suitable statement. Option E begins with "but" and introduces the topic that small towns may not be as perfect as we think them to be. Hence, the correct answer is E.

9. Ans. D.

The paragraph suggests that there is a "social pressure to become involved". This could be seen as an obligation, neglect of which might direct resentment towards you. But the passage doesn't make it clear how far this resentment will go. But, since most people in the community don't turn hostile, we can say that the given reference is probably false. Hence, the correct answer is D.

10. Ans. B.

Morrison was advising about how to keep oneself busy while living in a small town. This advice was the result of him living in one. Hence, the correct answer is B.

11. Ans. A.

If housing options are limited, then from the given options, "a suitable

home" will be the most difficult to find, as experienced by the Carlsens of Walla Walla. Hence, the correct answer is A.

12. Ans. C.

Only options II & III are correct. The reasons are as follows:

I: Doctors "...escape big cities for the simpler life". This is a personal life choice and has no relation to their work environment. So, option I is false.

II: "If you treasure your anonymity, you may not want to live in a place where everyone really knows your name, as well as your business..." shows that the people have no regard for personal privacy. They even notice tiny details like "...a new awning on your house or whether you left 15 minutes early that day, or whether your cat was wandering down the street." So, option II is true.

III: Of all the community activities, golf and fishing are the ones specifically mentioned. Clearly, there's a preference among the retirees. So, option III is true.

Hence, the correct answer is C.

13. Ans. B.

The emboldened phrase is erroneous. The phrase 'one of the' is always followed by a singular verb. Also, "myself" is a reflexive pronoun and is used when you are the object of your own action - i.e., when "you" are doing something to "you." (Ex: I could write the songs myself, but they sound better when they are written by Barry Manilow and me). However, the pronoun "me" is used as an object. (Ex: The songs are written by me.). Therefore, the emboldened segment should be replaced with 'was employed to copy the papers for me' to make the sentence grammatically correct.

Hence, **option B** is the correct answer.

14. Ans. C.

The emboldened phrase is erroneous. The word 'found' is the past tense of the verb 'find'. The word 'founded' is the part tense of the verb 'found' which means to establish/set up.

We need a past tense in the sentence. Also, the preposition 'in' is used to express a period of time during which an event happens, or a situation remains the case.

Hence, the emboldened segment should be replaced with 'founded by Francisco Hernandez de Cordova in 1523' to form a grammatically correct sentence.

Therefore, **option C** is the correct answer.

15. Ans. C.

The emboldened phrase is erroneous. The subject in the sentence is singular i.e. 'the repeated administration'. Since the verb must agree with the main subject and not with the intervening plural object of a preposition, the verb should be singular i.e. 'has'.

Also, an adjective is required to modify the noun 'repeated administration'. Therefore, the emboldened phrase must be replaced with 'the repeated administration of small ones has proved effectual' to make the sentence grammatically correct.

Hence, **option C** is the correct answer.

16. Ans. B.

The emboldened phrase is erroneous. The error is because of the usage of adverb 'anonymously'. We need an adjective to modify the noun 'a German translation of the Systema Naturae'. Therefore, 'anonymous' must be used instead of 'anonymously'. Also, 'hitherto' means

'until now or until the point in time under discussion'.

Hence, the emboldened phrase can be replaced by 'which had hitherto been technically anonymous' or 'which had been technically anonymous until now' to make the sentence grammatically correct.

Therefore, **option B** is the correct answer.

17. Ans. B.

Note that with the phrase 'A group of' we always use a plural noun. In this case the correct plural of 'passer by' is 'passersby'. Thus, option B is the correct answer.

18. Ans. D.

The sentence implies that locals and visitors love to move along the beautiful coastline.

All the three words, 'meander', 'stroll', and 'roam' meaning 'wander at random' are the apt fits for the blank.

Hence, **option D** is the correct answer.

19. Ans. B.

To manage the diversity, one should be able to understand or determine the key differences among them. 'Discern' meaning 'recognize or find out' is the apt fit for the blank.

Hence, **option B** is the correct answer.

The meanings of the other words are: Putrefy: (of a body or other organic matter) decay or rot and produce a fetid smell.

Enjoin: instruct or urge (someone) to do something.

20. Ans. C.

The sentence implies that it was misrepresentation of justice when she was not allowed to speak in her own defence.

'Travesty' meaning 'a false, absurd, or distorted representation of something' is the apt fit for the blank.

Hence, **option C** is the correct answer.

The meanings of the other words are: Exult: feel or show triumphant elation or jubilation.

Derision: contemptuous ridicule or mockery.

21. Ans. D.

The sentence implies that the subject's criticisms were always insignificant, and they never offered constructive suggestions.

All the three words, 'frivolous' meaning 'not having any serious purpose or value', 'thoughtless' meaning '(of a person or their behaviour) not showing consideration for the needs of other people', and 'flippant' meaning 'not showing a serious or respectful attitude' can fit in the blank aptly.

Hence, **option D** is the correct answer.

22. Ans. A.

The sentence implies that the event was an historic one that caused a sea-change in public attitudes.

Both 'momentous' meaning 'of great importance or significance, especially in having a bearing on future events' and 'significant' meaning 'sufficiently great or important to be worthy of attention; noteworthy' are the apt fits for the blanks.

Hence, **option A** is the correct answer.

'Sagacious' means 'having or showing keen mental discernment and good judgement; wise or shrewd'.

23. Ans. A.

In the sentence, "Leonard calls it "tacit knowledge"", "it" refers to the knowledgeable gainer from the experience, not the experience itself.

Hence, the correct answer is A.

24. Ans. D.

Even while bidding the senior employee farewell, the current

employees are worried about the future in her absence. This makes them, and by extension, the passage's overall tone. *apprehensive*. Hence, the correct answer is D.

25. Ans. B.

The company had to come up with a board game instead of a proper strategy. This strategy is also limited to just one company (Duke). Despite all the shortcomings, this is a strategy nonetheless, however unconventional. This given inference, thus, is probably true. Hence, the correct answer is B.

26. Ans. E.

The first paragraph talks about how employees retire over 10,000 times a day. The employees, while retiring, take away valuable experience along with them. So, when the paragraph says "haemorrhaging its veteran employees", it refers to lose or expend large amounts of experience employees. Hence, the correct answer is E.

27. Ans. C.

Sunk means experiencing serious trouble, or unable to solve a problem. Submerge means cause (something) to be under water.

Subside means become less intense, violent, or severe.

Slump means a period of substantial failure or decline.

Succumb means fail to resist pressure, temptation, or some other negative force.

Sag means sink, subside, or bulge downwards underweight or pressure or through lack of strength.

Hence, the correct answer is C.

28. Ans. A.

"Knowledge is the critically-important stuff in your head that has never been written down." Stuff in the head that can't be written down, cannot be

stored by any physical means. Hence, the correct answer is A.

29. Ans. E.

The seventh paragraph begins with "Business can start...". We need the previous sentence to state what needs to be started. Option E states this as the preparations for the retirement of a generation. It also provides a solution for the loss of experienced employees discussed in the given passage. Hence, the correct answer is E.

30. Ans. A.

From the different parts it is evident that the sentence aims to present a comparison between forest fires in different areas. The sentence should begin with part D. parts E and A form an unit which list two areas. Part B which talks of a single area and uses the comparative 'dwarfed' must come in second position. This makes option A the only eligible correct answer.

31. Ans. B.

From the given parts, it is evident that part B should start the sentence. This is because it draws attention to the people who have the virus and the rest of the sentence then goes on to explain their symptoms. Thus, option B which has part B in the beginning is the correct answer.

32. Ans. D.

When we observe the given parts we can see that part A should begin the sentence as it introduces the topic of fires. Their immediate effect is listed in part B which becomes the second part. Thus, options D or E can be the correct answer. Part B should be followed by part C which introduces the said 'vicious cycle'. Thus, option D is the correct answer.

33. Ans. A.

From the given parts it is clear that the sentence should begin with part B which presents the problem. It should

be followed by part C which talks about the issues with the problem. Since we have established that the sequence should go 'BC...' it is clear that option A is the correct answer.

34. Ans. E.

From the given parts it is evident that the sentence wants to point towards a warning issued by an authority/organisation. Thus, the sentence should begin with part A followed by part B. this makes either options D or E the correct answer. Part D talks about the issue of warning and thus comes in third spot. This makes option E the correct answer.

35. Ans. C.

From the given parts it is evident that part E should begin the sentence as the sentence aims to praise the quick action of authorities while urging them regarding future actions. Now, only option C has E in the first spot making it the correct answer.

36. Ans. E.

The above given sentence intends to state that India's federal power structure was highly reinforced during the 1990s as an outcome of a reluctant placing of new political realities. Hence, D-E should interchange each other to make the sentence grammatically correct and contextually meaningful. Hence, E will be right answer choice.

37. Ans. E.

The given sentence is giving perfect sense. The context of the sentence is that it is obvious that soon, there will be no choice left to the state and local authorities to restrict the activities in order to manage with the disturbing surge of cases. Hence, option E is the right answer choice.

38. Ans. C.

A-B and D-E will need replacement to make the sentence grammatically correct and contextually meaningful.

The context of the sentence is Iran is insisting USA to remove the sanctions first while Washington is asking Iran to take the first step and resume its compliance with the pact, the dispute between USA and Iran remains to be huge. 'Sanctions' should come in place of 'insisting' and 'remains' should come in place of 'pact' to make the sentence contextually meaningful and grammatically correct. Hence, option C is the right answer choice.

39. Ans. B.

The context of the sentence is that the void created by the departure of the US military machine should be filled forces that are not contrary to the peace, prosperity and permanency of Afghanistan and its neighbours. In this context, C-E i.e. 'forces-stability' will interchange each other to make the sentence grammatically correct and contextually meaningful. Hence, B will be right answer choice.

40. Ans. B.

The given sentence above intends to state that Jonathan is aware of the fact that Shashi Tharoor has accused the British of building the railways so that they can smoothen the process of getting the loot out of India. In this context, C-E should be interchanged to make the sentence grammatically correct and contextually meaningful. Hence, B will be right answer choice.

41. Ans. A.

* 2nd Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC), Disaster Management Exercise (BIMSTEC DMEx-2020) was held in Bhubaneswar (Odisha)
